Tech Committee Report

Our VACA I site seems to be working fine but our VACA
II site has had it ups and downs. The equipment was
reinstalled and work for a short while but then it locked up
and needed help in getting turned off (Thanks Bob). It will
need to be removed so we can fix it from misbehaving.

I will be having Tech committee meeting so those that are
interested please let me know, more details at the meeting.

MVRC General Meeting

Sunday, January 24, 1999 - 3:30 p.m.

Coco's Family Restaurant

1830 Arden Way

Sacramento

*Please join us for dinner
after the meeting.*

LIVERMORE VALLEY OUTING

Nov. 15, 1998, a small but dedicated group (AKA - the
Over the Vaca Hills Gang and Matt) departed I-HOP in
Elk Grove after a sumptuous breakfast. Destination, the
wineries of the Livermore Valley. With the exception of
a windmill tilt it was a pleasant but uneventful drive
arriving at the 1st stop, Concannon Vineyards.

Seven stops later we returned to Stoney Ridge for a late
but gourmet lunch on the deck. Enjoying the beautiful
weather, wine and camaraderie were Les, Matt, Mike K.,
Vicki, Lew and AB.

Unlike the foothill wineries who produce outstanding
Zinfandels, the Livermore Valley is best know for Pinot
Noirs and Chardonnays. This was a new area to explore
and a pleasant surprise for everyone.

Thanks to the Trail Boss for a great trip.

Y2K news from Microsoft:

Windows 2000 will once and for all fix the Y2K
problem.

Because of development difficulties, Windows 2000
will not be available until 1901.
